Halal Logistics

Logistics is part of supply chain which involves several business entities such as suppliers, manufacturers, distributors and retailers. The concept of Halal had catalyzed advancements in the Halal trades, creating new business drive within the logistic industry. Halal logistics industry seems to be new to the society as the halal issue is typically synonymous with food, pharmaceutical and cosmetic products.

Soil And Binder Testing
Laboratory

“

Halal logistics

refers to the process of managing the logistics operations such as fleet management, storage, warehousing, and materials handling according to the principles of Shariah law in ensuring the integrity of the halal products at the point of consumption”

Encompassing Halal

“Halal products are often associated with the correct way of slaughtering, manufacturing and processing according to sharia. But, the consumers are less aware of the importance of the halal logistics such as handling, packaging, management, inventory, storage, warehousing and transportation of halal products,” she added.

Halal Hub

During the implementation of transformational project of Low Cost Carrier Terminal (LCCT) as air cargo logistics hub, MITRANS advocated that Malaysia should take the opportunity to become a halal logistics cargo hub. As a result, it created a huge demand for Halal Logistic.

about MITRANS

MITRANS was established in 1982 and is recognised as the Higher Institution Centre of Excellence (HiCoE) in 2014. To support the Malaysian halal industry, MITRANS has collaborated with government and private agencies particularly Standards Malaysia and JAKIM to review the halal logistics standards as well as provide training and consultancy services to assist companies who would like to apply halal logistics certification.

Internationally, MITRANS was given the mandate to lead the Technical Committee 10 on Halal Supply Chain at the Standards and Metrology Institute for Islamic Countries (SMIIC) based in Istanbul to develop the standards for halal supply chain for the Organisation of Islamic Cooperation (OIC) countries since January 2016. Currently MITRANS is actively involves in conducting halal supply chain training for industries in the UK, Belgium and Hong Kong.
